

CALIFORNIA AIR RESOURCES BOARD

EXECUTIVE ORDER D-783-2

Relating to Exemptions Under Section 27156  
of the California Vehicle Code

APR LLC  
APR Air Intake System

Pursuant to the authority vested in the California Air Resources Board (CARB) by Section 27156 of the Vehicle Code (VC); and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOVED: That installation of the APR Air Intake System, produced and marketed by APR LLC (APR) of 4800 US HWY 280 West, Opelika, Alabama 36801, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the vehicles listed in the attached Exhibit A.

The APR Air Intake System is a replacement for the Original Equipment Manufacturer (OEM) air intake system. The APR Air Intake System includes the following main components: open-element air filter, intake system tubing, assorted brackets, and hardware. No changes are made to any other component of the stock engine, including engine calibration. The APR Air Intake System is identical to the APR Carbonio Intake for the vehicles listed in the attached Exhibit A.

This Executive Order is valid provided that installation instructions for the APR Air Intake System will not recommend tuning the vehicle to specifications different from those of APR.

Changes made to the design or operating conditions of the APR Air Intake System, as exempt by CARB, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any APR Air Intake System advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the APR Air Intake System using any identification other than that shown in this Executive Order or marketing of the APR Air Intake System for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from CARB.

This Executive Order does not constitute any opinion as to the effect the use of the APR Air Intake System may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on a prior evaluation (D-783-1) where emission test results in the modified configuration for the test vehicles were at or below the applicable certification standards and an examination of the OBD II system on the test vehicles showed the APR Air Intake System does not affect OBD II operation.

CARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides CARB with reason to suspect that the APR Air Intake System will affect the durability of emission control systems, APR shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE APR AIR INTAKE SYSTEM.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 26<sup>th</sup> day of September 2017.

  

Annette Hebert, Chief  
Emissions Compliance, Automotive Regulations and Science Division
